Corporate governance is an integral part of the larger economic context in which firms operate including macroeconomic policies and the degree of Competition in product and factor markets. The Corporate Governance framework depends on legal, regulatory and institutional environment. In the present days, there has been a growing need to efficiently manage the company in order to compete globally. Many changes are taking place in the global emerging economy. A rising economy is always robust with regulations & legal framework and India is not an exception to this. The underlying objective of Corporate Governance is the enhancement of the shareholder's value, keeping in view the interest of other stake holders. In addition competing in the International Business arena requires good leadership, which is the basis of Corporate Governance. The seminar is expected to address issues in corporate governance related to corporate culture, recent regulatory framework for trade, corporate strategies, researcher, students, etc.
